

2008 Wisconsin Domestic Violence Homicide Report

This edition details domestic violence-related homicides in the calendar year 2008. This brief accounting in no way represents the victims' full lives. That would require a far more detailed inquiry, in-depth study of official case records, and conversations with family and friends left behind. Within the limitations of readily available public information we have endeavored to construct as accurate a description as possible of key events and circumstances related to each homicide.
