

Webinar: Alice Basics

WCADV's technology coordinator demonstrates how to get around the Alice software, enter hotline, shelter and client activity records, events, and volunteer activities. Learn some of the settings you might wish to change, how to edit or hide choices in drop-down and multiple choice lists, make fields mandatory or optional, and where to find custom fields. **Play recording of August 3, 2010 webinar . [NOTE: Some things may have been slightly revised since this webinar but the basic concepts are the same]**Download the outline to follow along:
